

CORE Program – Mission Statement

Community Ordinance & Regulation Enforcement Program

The CORE Program helps keep Gratz clean, safe, and welcoming by responding to residents' complaints about common ordinance issues such as tall grass, yard debris, abandoned vehicles, and animal concerns.

Staffed by current borough employees or officials serving as deputy code enforcement officers, the program supports the Borough Code Enforcement Officer by handling minor violations, while more complex matters remain with Code Enforcement Office and Borough Council.

Our goal is simple: promote community pride, encourage voluntary compliance, and maintain the quality of life that residents of Gratz value.
